WARRANTS ARE EXECUTED UPON GOVT. ORDERS

Placed Under Arrest When Appearing to Give Evidence at Smith Case

Linked With Plot to Defraud Treasury

On charges that they "aid and abetted the theft of \$5,000 from the province in July 1921" Matthew Esdale and W. J. Jeffery were placed under arrest this morning.

The informations were laid by Magistrate Prior, by Henry Braze, special government investigator in connection with the printing process which the Royal Commission was investigating.

Warrants were at once served on Esdale and Jeffery, who were taken to the police court, where they were in attendance as witnesses in the case of P. Smith, their trial.

It is expected that counsel for Esdale will arrange bail later today.

Matthew Esdale, who has been on bail since his arrest on December 10th upon arrival from the United States, is charged with the theft of \$5,000 from the province during the printing process which the Royal Commission was investigating.

Warrants were at once served on Esdale and Jeffery, who were taken to the police court, where they were in attendance as witnesses in the case of P. Smith, their trial.

New Attempt Planned For Opening Up Peace Country

The Silence of the Journal

Wheat prices are a vital factor in the life of the Alberta farmer, particularly at this time of the year. No single piece of news is of more importance to him and he is entitled to this information in his daily newspaper. The Bulletin news columns are for news and do not carry editorial or propaganda matter.

Comparative Prices on December 16

|                 | Vancover Wharf | Spot   |
|-----------------|----------------|--------|
| No. 1 Northern  | 1.60%          | 1.58%  |
| No. 2 Northern  | 1.58%          | 1.52%  |
| No. 3 Northern  | 1.54%          | 1.47%  |
| No. 4 Wheat     | 1.48%          | 1.40%  |
| No. 5 Wheat     | 1.38%          | 1.28%  |
| Screenings, ton | \$9.00         | \$5.00 |

In addition to the wheat premium shown, the short freight has advantages to shipping westward. The advantage will vary according to shipping points in Alberta, from 1 1/2 to 3 cents per bushel.

What better evidence do the people of Edmonton and Alberta want that the press monopoly held by the Journal (until the new Bulletin made its appearance on December 3), was holding back the development of this city and province.

The Bulletin in less than a week forced this erstwhile monopoly to let go \$150,000.00 a year which it was taking from the people in the form of the highest subscription rates charged by any newspaper in all Canada.

The Bulletin intends to force the Journal to print Vancouver wheat prices or acknowledge it is not a newspaper at all, but simply a propaganda organ of eastern interests.

## THE "NATIONAL" FINANCES

Sir Henry Thornton intimates that the National system will close the year with a profit over the costs of operation amounting to \$30,000,000. He adds that in October the National had a larger profit over operating costs than any Canadian railway ever earned before in a single month.

The news will be both welcome and encouraging to the public. It shows that it was a very much mistaken assumption that little or no betterment could be made in the finances of the system unless and until the population of the country doubled or trebled. There has been no phenomenal increase in population since Sir Henry took charge. But the enterprise has been pulled out of the morass into which it was floundering deeper every year and got into a position in which it paid actual running costs and turns over a very large sum annually toward meeting the heavy charges on capital investment.

The moral is that efficiency of management is vital in the operation of a railway system; and that, having secured efficient management, the people of Canada would be doing themselves a poor service to take any chances on losing it.

In the recent election campaign a good deal was heard about the increase in salary granted to Sir Henry Thornton at the last session of Parliament and Liberal candidates everywhere sustained losses because of popular dislike of the idea that the head of a government concern should be given an increase to an already handsome salary.

That objection, however natural, is not well taken. It is true that the National is not paying the interest on its capital cost. But it is paying its operating costs and a good deal more. It never met operating expenses out of revenue before the present Liberal Government put Sir Henry in charge. If Sir Henry were drawing a million a year the tax-payers of the country would still be many millions per year in pocket because of the improvement he has made in the financial outcome of the operations of the National. The executive ability to run a railway right never is overpaid. And it is well to remember that there are many private owned railway systems looking for managers of the Sir Henry Thornton type, where merit is rewarded and not criticized.

## WHY NOT ALBERTA COAL?

A Toronto professor has a new solution of the heating problem. The solution is simple too. When helium is manufactured from hydrogen, atomic heat is liberated. It is presumably only a matter of finding something to do with the helium that will pay the cost of manufacture, and of building enough plants. Then the houses of a city could be warmed by the atomic heat released as a by-product of the operation.

But meantime Ontario depends on coal and wood, and both of them are scarce. A strike in United States mines has left the stores and furnaces of the province on short rations, with apprehensions of worse to come. There is a sharp demand in some of the Ontario papers that the expedient adopted some years ago of importing Welsh coal be revived, the municipalities or the Provincial Government financing the transaction and doing the importing and distributing.

Why not Alberta coal, instead of coal from the other side of the ocean? Probably it is assumed that importing coal from this province is not practicable save in the summer season and then not at rates which cause the railways to lose money. That assumption was based some years ago on the fact of the course of events during the last six months and the inference that it is to draw from them.

The Dominion Parliament at the last session voted the sum of \$25,000 to be used in making up the railways which they should actually lose during the summer in hauling coal from Alberta to Ontario at seven dollars per ton. The railways shifted a fairly large tonnage from Alberta to Ontario; but at last reports they had not applied to Ottawa for a dollar of that bonus money.

Why this unexpected hesitancy on the part of the railways about claiming money that is earmarked for them? The obvious conclusion is that they cannot show the Government auditors that they lost any money hauling Alberta coal to Ontario at seven dollars per ton—which they would have to do in order to draw on this deficit fund.

Ontario might get action on the fuel question sooner if there was generated in that province a demand to know why the railways will not haul Alberta coal to Ontario at seven dollars per ton regularly, in view of the fact that they do not claim to have lost money when they did, under pressure, haul it at that rate. Needless to say the mine operators, miners and the public generally in Alberta can be counted on to back up any such demand most energetically if the coal consumers of C. tariff see fit to make it.

## OUR DAILY POEM

By EDGAR A. GUEST

TO DONALD ROSS.  
Famous Scotch golf player.

(On receiving a picture of the famous golf architect studying a six-foot putt.)

Brave Donald, in your suit of brown,  
I see you studying your putt

And well I know you'll run it down;  
It is a splendid picture, but

For all the woes you've worked for me,  
Deep in a bunker you should be.

I smile to see your kindly eye,  
The good to see your figure fair,

Six feet away, I'll say you lie,  
And know your second put you there!

They took your picture on the green—  
A pit had made a merrier scene.

I should have laughed to see you caught,  
Your niblick tightly clutched in hand,

Shaking where I so oft have fought  
To battle with the stubborn sand;

It would have pleased me more to see  
Your ball where mine so oft must be.

Yet, Donald, if perchance the day  
Shall come to me when I can brag

That I, like you, have learned to play,  
My second shall slide up to the flag;

If I reach any green in two,  
I'll have my picture made for you.

Do You Remember?

FORTY YEARS AGO

From the Edmonton Bulletin, Saturday,

December 19, 1885.

J. Norwick has gone to White Fish Lake on a trading trip.

Strong baker's flour is \$10 at Victoria and \$15 at Lac La Poudre.

D. M. McDougall and J. Kernan arrived from Calgary on Saturday last.

Bucks only left the open part of the river in front of J. Kirkness's place on Monday last.

The Frog Lake Indians are reported to be very hard on no government rations and no traders.

J. F. Hall, pilot of the B. B. Company's Athabasca steamer, left Battleford on Wednesday on his way home.

Safoos of the Two Hills band of Indians killed seven elk in two days while hunting in the Crooked Hills near Battle River last week.

Children's festival at All Saints on Christmas evening.

W. S. Robertson desires to say that the charges made by him against the crown timber agent have not been dropped, but will be prosecuted in the spring.

THIRTY YEARS AGO

From the Edmonton Bulletin, Saturday,

December 19, 1895.

WINNIPEG.—Archbishop Langevin's mother is dead.

WINNIPEG.—The Venezuelan question and President Cleveland's message to Congress in reference to maintaining the Monroe doctrine are commented on by the American and European press. The message is so jingoistic that an outbreak is feared.

WINNIPEG.—Armenian missionaries at Maysevan are safe.

WINNIPEG.—The Manitoba government will send a reply to the rejoinder re school question on Saturday.

TWENTY YEARS AGO

From the Daily Edmonton Bulletin,

Thursday, December 19, 1905.

F. C. Peterson, general manager of the Bell Telephone Company's western branches, and J. E. Bull, Calgary, manager of the Alberta branches, were in Edmonton yesterday for the purpose of conferring with the city council-elect with a view to connecting up the long distance lines with the city service.

REGINA.—Complete election returns show that the Scott Government has fifteen supporters elected, a majority of five in the Legislature.

With the closing of the public schools today Principal Ramsay severs his connection with Edmonton's educational institutions and the scholars will this afternoon greet their retiring tutor with a gold watch as a token of their appreciation.

Weeks and Company promoted a deal for the sale of Arthur Ormsby's property on the corner of McLeod and May streets yesterday by which the property was sold to Montreal parties for \$20,000.

L. D. Parney and family left on a visit to Ontario today evening.

Hon. W. C. Finlay, Minister of Agriculture for Alberta, arrived in the city last night.

TEN YEARS AGO

From the Morning Bulletin, Tuesday,

December 21, 1915.

LONDON.—The announcement of the British withdrawal from Gallipoli overshadowed all other war news tonight. For the British public the abrupt withdrawal of the army marks the end of one of the great chapters in the history of the war.

LONDON.—Parities of the British Mesopotamian army that are holding positions on the Tigris river at Kut-el-Amara have been rallying forth and attacking the Turks advanced trenches.

LONDON.—Forty-four aerial combats occurred yesterday in the vicinity of the British and German lines in France and Belgium.

Twelve returned members of the three hundred Princess Pats who left the city commanded by Colonel McKinnery, then major, were entertained to a sumptuous banquet last night at the Selkirk hotel by Colonel and Mrs. McKinnery.

Major Bruce Powelley, formerly of Edmonton, and now of Victoria, B.C., has been offered and has accepted command of the 182nd "Bantam" battalion.

## DR. FRANK CRANE'S EDITORIAL

**R**ARELY, if ever, does any good come from breaking the law. Outside of law there is no rule except force. To abandon law is to place ourselves under the barbaric rule of the strongest.

There is an old aphorism to the effect that the revolutionary and the reactionary come from the same stock. Both have a blind faith in deplorable remedies.

The Reds, when they would overthrow the law, simply wish to assert their own will as the law.

Equally the Faris, the Ku Klux Klan, impatiently sweep aside law.

But the doctrine is sufficiently obvious and alien in either extreme and sensible people will not adopt them when adopted.

The phrase, "within the law," means more than clever rascality. It implies the normal path of evolution, which is not a lawless thing; in fact progress is not lawless, but moves in well defined channels, and moves more surely for taking care of the past.

James Bryce told us that there is no institution which controls the future which does not have its roots deeply in the past and there can be no normal progress of human society that does not conserve the valuable things that have been wrought for us by our fathers.

We may often grow impatient with the law and its processes, and it is better to suffer the evils that come from incompetence of the administrators of the law than it is to sweep them aside and take the law into our own hands. The end of that sort of thing is always the rule of the strongest. Law protects minority. It is the friend of the weak and of the helpless much more than of the strong.

One of the wisest things ever said by the palmarist was: "Great peace have they who love Thy law, and nothing shall offend them."

## "Nature Teeth are Rivals of Nature's Own"

MY patients who first see their reflection in the mirror smile with pleasure—a natural smile but with something of astonishment in it too, for they seldom expect their own teeth to look so natural. These Nature Teeth which I build into your mouth to match the ones that grew there are as strong and comfortable as well as handsome as Nature's own. They are not detected as artificial.

Come up and see examples of these Nature Teeth which match your own in size and shape and exact tint. There is no charge for advice.

# Huge Death Toll in Mine Disaster; British Evacuation of Rhine

**NO STRINGS ON FASCISTI CHIEF.**—By special royal decree King Victor Emmanuel of Italy gives Premier Mussolini further proof of the country's loyalty and faith in fascism. The new decree accords "Duce" unlimited power and freedom of action. The photo was taken immediately after the proclamation.

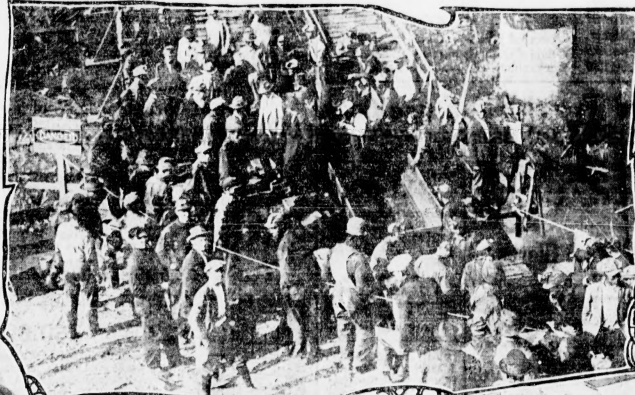

**NEW JEWISH SCHOOL.**—The Toronto Hebrew Free School, "Talmud Torah," built and to be maintained by the Jewish community, will be officially opened on December 20. Photo shows the kindergarten class. All the children are taught Hebrew, a unique feature. The school is situated on Brunswick avenue.

**JAZZ AND CLASSICS.**—Paul Whiteman, monarch of symphonic syncopation, waves a baton for an impromptu concert with Eugene Goossens, conductor of the Rochester Philharmonic orchestra, at the piano, and Val Rosing, Rochester opera impresario, as soloist.

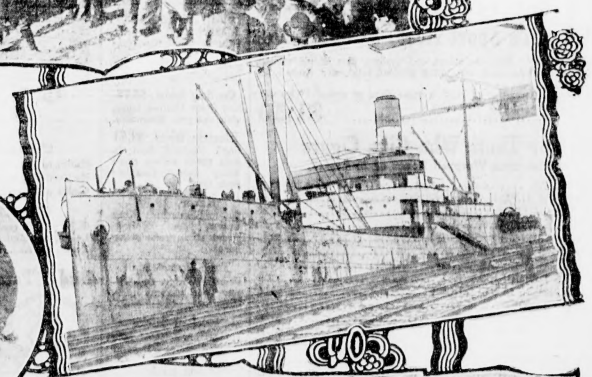

**RIGHT: THE DEATH TOLL.**—from the gas explosion on December 10 in Overton Mine No. 2 on the Cabana Fria, south of Birmingham, Ala., has reached 61. Fifteen men escaped, while five were badly burned. The mine is 2,800 feet deep. The photo shows the first batch of the dead about to be removed from the entrance.

**RAMMED M-I.**—Below is shown the S.S. Vidar of Stockholm, which by running foul of the British sub is generally supposed to have caused the loss of the giant undersea craft with the consequent death toll of 67 men.

**LEFT: Mary Garden,** of the Chicago Opera, who has returned for the first presentation of Tolstoy's story, "Resurrection," with music by Alphonso. She says there is nothing like radio.

**RIGHT: Betty Lee Cooper,** Boston blonde, who seen walking along the street by Flo Ziegfeld, was offered a job in his new revue.

**CARDINAL HAYES SAILS FOR ROME.**—An interesting incident to the departure of the prelate from New York was the kissing of his ring by Lieut. Fitzgibbons.

**WAR VETS POLICE LA GRANGE.**—Owing to the general police strike in the Illinois town volunteers from the American Legion are being used to protect citizens from those Chicago desperadoes who might sense a golden opportunity in the situation. The "cops" are armed for action, but so far nothing more exciting than that shown above has occurred.

**LEFT: ANOTHER ONE.**—Dorothy MacKail, famous anti-fat movie star, wearing the latest sensation, "knee muffs," which promise to be the winter fashion rage in New York and Hollywood. They are of mink, specially made to match the coat she wears.

**BRITISH LEAVE COLOGNE.**—Exactly seven years after they first occupied the German town on December 1, 1918, the troops of the Army of Occupation withdrew. Above shows one of the scenes during their departure. The soldiers are moving a heavy lorry in the snow preparatory to loading it on a train.
